

Aquablast® Line

Device for cleaning and decoating surfaces.

The Aquablast® Line is a device for cleaning and decoating vertical or vertically inclined surfaces. It is particularly suited to treating rusted areas and/or surfaces with similar damage.

The system can be mounted on various suitable carriers (e.g. hydraulic lifts, baskets, working platforms, etc.).

**High
safety**

**environmental friendly
working**

**Modular concept for a
high variety of operating
conditions**
